Biography

Oluseye O. Onabanjo is a Reader in Community Nutrition at the Federal University of Agriculture, Abeokuta, Nigeria. He received an M.Sc and Ph.D degrees in Nutrition and Dietetics from the University of Agriculture, Abeokuta, Nigeria, in 2000 and 2005, respectively. Dr. Onabanjo received a Postdoctoral Fellowship from the South African National Research Council to conduct research at the Centre of Excellence for Nutrition, North West University Potchefstroom Campus, South Africa between 2009 and 2010. During which he was involved in Coca-Cola sponsored research project on supplementation of micronutrients and cognitive performance in school children. He was a member of research

team on Iodine status of children in Ogun State sponsored by UNICEF in 2003. He has served as a research Consultant at International Institute of Tropical Agriculture, Ibadan on a project sponsored by IFPRI/CIAT Biofortification project in 2004-2005. He has worked on International Projects such as ‘‘Nutritional properties and health functionality of wholegrain millet sourdoughs’’ sponsored by Africa-Brazil initiative started in January 2013 and to be conclude in December 2014. He is the author of over 50 research publications in peer-reviewed international and local journals and is a reviewer of manuscripts for several reputable journals. He is a member of Nutrition Society of Nigeria, African Society of Nutrition, American Nutrition Society, African Graduate Nutrition Network and African Nutrition Leadership Programme. The scope of his research stretches from molecular, biochemical, clinical studies and epidemiology.

Research Interest

Nutritional Epidemiology; Community Nutrition; Food Consumption behaviours in relation to Chronic diseases; Dietary patterns and Health risks at the national and international settings; Biomarkers and predictors of Nutritional status in large populations with emphasis on the subgroups at risk; Micronutrient malnutrition among the vulnerable groups; national nutrition surveys and its application in research; Complementary food formulation, Nutrition composition of local foods and dishes.
